

Perm Winter School 2017

Research Session

Moderator: **Demetrios Zamboglou**

Nikolay Andreev	Evgeniy Vladimirov	Yulia Mizgireva	Eugene Istomin	Sofia Akhunyanova
NRU Higher School of Economics	European University at Saint Petersburg	Perm State University	G-Global Development Community	Perm State University
Worst-case approach to strategic optimal portfolio selection under transaction costs and trading limits	Mapping the stocks in MICEX: Who is central in Moscow Stock Exchange?	Potential effect of the blockchain technology implementation on clearing and settlement procedure of IATA Clearing House	When social engineering meets financial: Sustainable micro-communities management as a "digital-driven trust" producer and consumer	P-adic modeling of the RTS Index dynamics depending on the timeframes

Core Questions

1. **What is your research problem?**
 - *Outline your research problem (research topic);*
 - *Define your problem clearly, state the concept that is related your study and identify your feasible solution to the problem;*
 - *Has this been done before?*
 - *Which is the most influential publication in your paper.*
2. **Give a short summary of proposed research question(s)?**
 - *What research question(s) are you answering?*
3. **What are your hypotheses?**
 - *State the hypothesis you tested?*
4. **Describe your data?**
5. **Describe your methodology?**
6. **Describe your results?**
7. **What is your theoretical contribution(s)?**
 - *Can you identify a theory, or a body of theories, that you are working on with in order to signal your contribution clearly?*
8. **What is your practical contribution(s)?**
9. **What are your conclusion(s)?**

Additional Questions

10. **Describe any issues/ problems you faced in your research and if those prevented you in achieving your targets?**
11. **What kind of training, development and conference events you attended in the last 12 months?**
12. **What are your future plans?**
 - *Where do you see yourself working or doing after you graduate?*
